

Fintrac

This section of the Complete Agent Playbook ensures every REALTOR® understands and meets their legal responsibilities under Canada's FINTRAC (Financial Transactions and Reports Analysis Centre of Canada) regulations. Agents are required to identify clients, complete mandatory forms, report suspicious activity, and properly document all transactions involving funds. To make compliance simple and consistent, all agents must use the Fintracker app—a mobile tool that guides users through identity verification, PEP/HIO checks, and submission of required FINTRAC forms. This section walks agents through when and how to use the app, what forms are required, how to store them in Skyslope, and how to escalate suspicious transactions. By following this system, agents reduce risk and protect both themselves and the brokerage.

SOP: FINTRAC Compliance for REALTORS®

Purpose

To ensure all REALTORS® at Century 21 Heritage Group comply with Canada's anti-money laundering (AML) and anti-terrorist financing (ATF) obligations under FINTRAC, using approved procedures and tools—including the **Fintracker app**.

Why This Matters

FINTRAC (Financial Transactions and Reports Analysis Centre of Canada) requires all REALTORS® to complete and document due diligence on clients involved in real estate transactions. Failure to comply may result in audits, heavy penalties, or disciplinary actions.

Century 21 Heritage Group has adopted **Fintracker**, a digital compliance tool, to help agents accurately and securely meet their obligations for each transaction.

What Is Fintracker?

Fintracker is a digital app used to:

- Verify client identity through government-issued ID
 - Complete required FINTRAC forms digitally
 - Produce a PDF to be uploaded into the Skyslope file or sent directed to your office Admin to have them submit in the Skyslope file
 - Maintain a permanent audit trail
-
